Re: Waiver for late filing of Form 471 Application Number 933807

Dear Ms. Dortch:

I am writing to request a waiver for a missed deadline rule. I called USAC within the filing window and was given incorrect information.

Before the deadline, I called USAC with a question. While on the phone, it was discovered that the 470 wasn't certified. USAC support told me that the 28 day window for vendor bids starts only when the 470 is certified, not submitted. After waiting another 28 days, I had another question on the 471, so I called only to find out that the 28 day window starts on the submission date. The certifying only had to be done before submitting the 471. I ask that you waive the missed deadline rule.
